## Selectmen Hold License Confab With Registry and Police Dept.

### Was It Necessary?

The position of chairman of the Board of Selectmen is a position of honor. It is the highest elective post in the Town of Wilmington. It bears a certain amount of honor, of dignity; the manners and morals of a town are reflected by the actions of its most highly placed official.

The unparalleled attack on a member of the press Monday evening by the chairman of the Board calls for public notice. During the visit of two Registry men, a reporter, not from this paper incidentally, was seated next to one of the Registry men and asked for clarification of a statement the man had made. The obliging visitor fully answered his questions and the two carried on a conversation in the background. The other Registry man was talking to members of the Board; two other pairs of Selectmen were discussing other points across the table; the meeting had lapsed into an informal discussion, in which, in fact, this reporter took some part.

Upon the departure of the Registry men the chairman of the Board turned upon the reporter and in the presence of the rest of the Selectmen and other members of the press, lashed out at the reporter with a tirade embarrassing to all present. Mr. DeFelice accused the reporter of poor manners!

In the past, the obvious slights, the open display of displeasure at the presence of the representatives of the local papers at the meetings have all been treated by the reporters with amusement, with an air of "taking it from whence it comes." The oldest mark of hospitality in the world, breaking bread, has been ignored by Wilmington's leaders as they served coffee and cake among themselves last year at meetings, while seated three feet from their unwelcome guests, the ladies and gentlemen of the press. In fairness, Mrs. Wavie Drew refused refreshment while others were present and ignored.

In the capacity of a reporter, many doors are opened, many meetings attended, many officials contacted. The manners of the majority of the people of the town are excellent.

Manners, defined by Emily Post, is simply consideration for others. Are manners the measure of the man? Does this attitude carry into dealings with outside agencies? Is it good for the Town?

There are better ways of staying young than acting childish.

### DEMOCRAT WINS REPUBLICAN SEAT

**First Time After 43 Years—**  
Thomas F. Donahue, of Woburn, polled 3743 votes to defeat Republican candidate James C. Calvin, of Reading by 93 votes, in the special State Legislative Election held yesterday to fill the unexpired term held by the late Representative Charles Wilkinson, Republican. Calvin polled 3650 votes.

The new Representative is President of the Woburn City Council. His strength came largely from his home town, while Calvin carried the surrounding towns.

The 18th district includes Woburn, Reading, No. Reading, and Wilmington. It has been Republican for the last 43 years.

### 641 Votes Cast At Special Election

A total of 641 votes were cast at the Wilmington polls yesterday as 405 Republicans and 241 Democrats braved the rain to vote in the special election to fill the vacancy created by the death of Representative Charles Wilkinson. James Calvin received 405 votes, Thomas Donahue, 241, and one blank was recorded.

### Johnny Imbimbo Appointed Constable

The appointment of John Imbimbo as Constable was made recently. The popular officer has been a member of the police department for the past 13 years and is well known for his work with and interest in the youth of the town.

Another recurrent problem of the Board of Selectmen, the granting of first, second and third class licenses for the sale of automobiles, was aired thoroughly Monday evening. Two registry men from Lawrence, James Manning and Edward Reidel, introduced by Chief of Police Paul Lynch, were present at the Board's request to clarify the law regarding various commercial automobile transactions.

The Board also wanted to know the laws covering repair and dealer plates, and licenses for garages using them. The Registry men told the Board that a repair garage needs no license and that repair plates are issued to repair garages. The Selectmen have been trying for some time to sell a license to a Main St. garage operator, William Rich. Stating frankly that Mr. Rich was one of the gentlemen the Board was interested in, the chairman, Nicholas DeFelice, also inquired into various aspects of used car sales, and was told that if Mr. Rich is merely displaying the cars and trucks as a favor to a friend as Mr. Rich claims he is, and is receiving no compensation, he is within his rights. If, the Registry men continued, the Board feels that the man is making a profit, the Board may take him to court and it would be up to him to prove

**ROTARY NEWS**

The weekly meeting of the Wilmington Rotary Club, was held Wednesday at noon, with sergeant at arms, Bill Stevens, presiding. After the opening ceremonies, Mr. Stevens called upon Stanley Cummings to offer the invocation.

After the luncheon, the acting president called upon Adrian Durkee to introduce the following visiting rotarians: from Rockport, Ed Morgan, from Woburn, Doc Atwood, and from Reading, Ted

Knudson and Ray Cleary. Ed Osberg introduced his guests, Edward Keenan Jr., and David Larry. Gene Croke introduced his brother Tom.

The chairman turned the meeting over to Ralph Swanson, who introduced the guest speaker, John Nicol Mark. Mr. Mark was the district governor at the time that the Wilmington club was organized. After a period of telling some of the Mark's famous jokes, the speaker told of a recent pilgrimage made to four shrines in Scotland. Rev. Marks is a very talented speaker, and his diversified talk was well received by the group.

To sub-teens and teens, it sets a standard for the home they begin to dream of. To young marrieds a well-appointed home is a foundation on which to build a forward-looking social and business life. In later years, a well furnished home is a haven for relaxed living. This year, give your home the furniture it needs to make it a background for happy living, a happy family.

Give your living room a new look with a gift of a sectional sofa. This adaptable style grants you change-about privileges, and a variety of furniture groupings. ## Fundy's Tides Are Mighty

Photo: Courtesy Canadian National Railway

**HIGH AND DRY** are these ships in Market Slip at Saint John, New Brunswick, Canada, when the mighty Fundy tide is out. One hundred billion tons of salt water surges through the rocky portals of the Bay of Fundy every 12 hours and 25 minutes, affecting the Bay ports of Nova Scotia and New Brunswick. One of the most startling sights along the coast is ships high and dry in the morning and afloat 12 hours later. Normal tide in the Bay of Fundy is about 40 feet; the highest in the world and the mightiest manifestation of the moon's strange pull on the oceans.

## For Holiday Comfort

**TRIMMING THE CHRISTMAS TREE** is a wonderful tradition — but exciting as it is, it's not always the neatest job to do. And of course, this is the season of unexpected guests. It's important, therefore, to be practically presentable — and the wool sport shirt and slacks are perfect for the job. Both are treated with Syl-mer, Dow Corning's silicone finish for fabrics, to make them durably water and stain resistant as well as more luxurious to the touch. Also, this outfit will stay "new" looking longer, because Syl-mer fabrics resist wear and wrinkling making fewer dry cleanings and pressings necessary. During the busy holiday season, the man of the house will really appreciate this comfort, good looks and practicality.

## BEAUTIRAMA OPENING AT PERRY'S CORNER

Welcome news to the ladies of Wilmington is word of the opening of one of the most modern beauty shops in the area. "Beautirama", it's called.

Tastefully decorated in pink and grey, with accents of black and white, the completely new fully equipped shop, opens tomorrow in its handy location, at the corner of Woburn and Lowell Sts. Three operators will be on hand to provide expert service in all branches of beauty culture. Experts in tinting, bleaching, cold waves and other aspects of making

my lady more beautiful than she is already, the operators at the Beautirama have the latest equipment in the four booth, seven dryer shop.

The owner of the new shop, Mrs. Eleanor Ferguson, has many years of experience to guide her in the new location. The other operators also are well known, fully experienced beauty consultants.

A visit to "Beautirama" will give any lady "that pampered feeling". Hours are from 9 - 6, with evening appointments available. Call OL 8-8491 for your appointment.

## TURKEYS AND TREES AT ONE STOP

One stop Christmas shopping, at least for the home festivities is the case at Patsy's Farm on Main St.

Here you can buy the turkey and trimmings, and also a fresh, guaranteed-not-to-shed balsam tree. Wreaths and garlands are also in stock, as well as tasteful baskets.

Patsy's is known, for miles as the place to go to buy the holiday bird. The quality of the turkeys

alone have made a name for the conveniently located farm. The delightful assortment of fresh vegetables will gladden the heart of the harassed housewife as she completes plans for her holiday feast.

Let Carmela, Mary, Patty, Junie or Patsy himself, help you select a turkey, pick out a tree, choose trimmings for the table and the house, and set out for home all set, in one stop.

## Chapin Chatter

Thanksgiving is just past, and Christmas is almost here. This is the holiday season when one of the things we do a great deal of is "eat". There are mammoth turkeys with all the fixings, there are parties where we over indulge in good things to eat and drink; there are always "goodies" around the house to nibble on at all hours. All in all it's a time when everything is expansive, and a spirit of well being is in the air.

After Christmas, that "expansiveness" sometimes becomes a problem, and a great many of us are faced with that ugly word, so well known in America, DIET.

The word has many meanings, but with us, it has come to mean a reduction in food, or eating, or taking in less food fuel. Perhaps, speaking of food as "fuel" strikes you as peculiar, but food is the fuel that keeps our body engine operating. If we take in too much, the excess forms fat, and causes a decrease in efficiency, and a strain on the whole mechanism.

The same is true with your house heating system, and your oil burner.

If more oil is put into your heating boiler than it can absorb, the excess is wasted up the chimney, or soot is formed which is the same as the fat, in that it causes a slowdown in efficiency, and therefore, overstrains, and shortens the life of the heating system.

You can put your heating system on a "DIET", by installing a WINKLER LOW PRESSURE OIL BURNER. It will provide just the right number of calories to keep your heating system operating at maximum efficiency. It will burn those calories completely so that there is the minimum of waste products. It will eliminate the "fat", in the form of soot, that causes your unit to labor to do its job.

The only "fat" will be deposited in your pocketbook, in the form of long green stuff, sometimes referred to as "spinach". If you want more of that "spinach" in your pocketbook, and less "fat" on your oil man, you can't lose with a WINKLER LOW PRESSURE OIL BURNER.

Call us at Reading 2-3290 and we'll be glad to put your heating system on a DIET.

**ENROLL AT NORTHEASTERN**

More than 400 students enrolled in Northeastern University's November Freshman Class, bringing entire class, the largest in the history of the University, to more than 1900 students, according to an announcement by President Carl S. Ell.

Included in the November Freshman Class are Michael J. Fitzgibbon, Belva Road, West Billerica; and David B. Calhoun, 37 Columbia Street, Wilmington.

**AROUND THE TOWN IN MINUTES**

It seems to me, for a club that has been in existence long enough to have just barely dried the ink on its charter, the Wilmington Boosters sure take the cake. At the last count, George Dyas had, after subtracting one thing, and adding another, about one thousand and American Dollars in that treasury.

We started out as a small group of neighbors and friends, who wanted to make sure that the boys who played in Sports this year would be remembered by us, the people. With the co-operation of the boys themselves, we have succeeded in this enterprise.

The High School has lent the support of the teaching staff, when needed; they have been very understanding, and have extended the hand of friendship to both us and the students who have trodden in on night school Cafeteria classes, and the Principal, Mr. McMahon, and the Coaches, Mr. Bellissimo, and Mr. Ritchie, have

gone along, step for step with our efforts in raising this money.

Well, our season is almost over, and we are ready to go into the details of the Banquet, which is scheduled for January 11. It can't be any sooner than this date, as there is much planning, and we want to have everything alright.

Our thanks to members of the school committee, Mr. Collins, and each and every one in the town of Wilmington who have co-operated with us in this effort.

**Boosters of the Week**

The following is a list of a few more of the Wilmington Boosters: Leonard R. Bryant, R. J. Baker, Maria Babbitt, Al Balkus, Margie Beddoes, Albert L. GAILY dressed coloured folk go about in groups during Christmas and Easter seasons, dancing in the streets to flute and drum. These visitors are shown here inspecting Gombey's colourful costumes, often adorned with small mirrors which reflect the sun as performers whirl and jump. Their tall headdress is made of peacock feathers. Gombey's intricate dance patterns are believe to be carry-overs from African tribal ritual.

## D. A. V. HI-LITES

As of January 1, the annual dues will be increased and all members who have not, as yet, paid their 1957-58 dues are urged to do so before the increase takes effect. We are close to 100 per cent membership at the present time and commander Simpson hopes we will reach the goal by the first of the year.

Wilmington was well represented at the annual D. A. V. Hospital Day on December 1, at the Bedford V. A. Hospital. Jim Simpson, Jimmy Shine, and John Davis represented Chapter 106 by distributing cigarettes and a cheery word to the hospitalized veterans. This is one of the chief reasons for the formation of the D. A. V. This type of work should be high on the agenda of every chapter and every chapter member.

We hope all members will attend the big Christmas party on Staur-

day night, December 14. This promises to be an outstanding event. There will be dancing from 8 to 12 p.m. with music furnished by Johnny D'Amore's Orchestra, a very fine buffet, and a fine evening of entertainment is promised for all. There will be a charge of 75c per person at the door to help defray the expenses of the party. All our non-member friends and guests are invited to attend and enjoy with us a fine time.

The D. A. V. has asked that December 7, now observed as "Pearl Harbor Day" be designated as "National Unity Day" to clarify the meaning of the observance in the minds of the American people. Commander Simpson states, "The Disabled American Veterans have requested the change because it was the unity brought about in our country by the Pearl Harbor attack which assured our victory in World War 2." Surely, in these days of mounting pressure from behind the iron curtain, there is a need of national unity equal to any other period in the nation's history.

The pupils up to and including grade 4 will meet in the afternoon, and all those from Grade 5 up, including the Fireside Fellowship, will meet in the evening. As My  
Garden Sleeps

By Mari Gold

By this time, all cultural work for the season should be done. All tender bulbs, roots, and corns should be safely stored where they will neither mold nor dry out. The weather is still too warm for mulching the plants, as the ground has not frozen yet.

If you expect to secure any landscape service this year, now is the time to do it as the nurserymen usually have more time now and while your grounds are still bare, he can get a better idea of your problems. If you call him now, you will be all ready to start with the arrival of spring.

Be sure that you have made the final clean-up of your grounds. Remove all old flowers stalks. Turn off the water. Drain the hose and be sure the garden ornaments (such as urns, or jars are turned over so that they will not fill with rain or snow. If your ornaments become full of snow or water, they will freeze and quite probably break. It is not too late to pot some bulbs in soil, or to force them in water. They will make nice gifts for your flower-loving friends or shut-ins.

One especially nice plant to receive or give, is the Christmas Rose. This plant is a herbaceous perennial. It is native to the rocky regions of southern Europe and western Asia its perfection of flower and season of bloom have earned for it other names, such as "winter rose", "snow rose", or "Christ Herb".

There are many stories which connect the Christmas rose with the birth of Christ. This flower loves the bitterness of winter and sets its buds in October. The buds force their way up through the snow and grow to a height of eight inches. It always faces the strongest light and opens, first in

a cup shape, then to a flat bloom measuring from two and three quarters to three and three-quarters across. The Christmas rose makes an excellent house plant and can be forced to bloom indoors during the winter months. They may be purchased from the florist shop, just as other Christmas plants.

Helleborus Niger Rubra is the New England grown Christmas rose and differs a little from the white variety as it blooms a little later with the foliage and flower stems very erect. The flowers are a striking shade of deep maroon-red and are more abundant than the white variety. A nursery in Fairhaven, Mass. grows and sells only New England grown plants.

With Christmas getting closer and decorations yet to be made, it is fun to gather your own materials. In most cow-pastures, there is an evergreen called Sayin Juniper, a dwarf growing evergreen, silver-green in color with clusters of blue berries on the under side. This evergreen, to be used to its greatest splendor should be used with the bottom side foremost as the silver color shows more and the berries will be in full view. This evergreen, mixed with balsam or spruce makes a nice swag for the front door or the fireplace.

In our state, I believe the low-growing evergreen, called Princess Pine is protected by law and is not to be picked as it is becoming extinct. This is an evergreen which grows about six inches high and is an individual little plant. It may be purchased in some markets, but is shipped in from other states.

If you would like to silver or paint an evergreen, one which is easy to do is the arborvitae, it lies flat and shows up well in any forms of decoration, the arbor-

vitae has short branches, but you can always tie another branch or stick to it for length. Branches from a maple or apple tree are pretty when painted white, silver or gold. The branches from a when painted maple and apple tree grow in graceful lines.

There are so many things to use for decorations, growing in your own yard, all you need to have a festive looking home for the holiday season is a sharp pair of clippers and a little imagination. Use your head in clipping, however as not to ruin the trees for spring.

Dear Editor:

The Gentry of the town sure did a good job of putting Old Tyrant "Debt" on the run at the recent town meeting.

But let's not knock ourselves out, patting backs. It had, first, to be called to our attention by the State that something was amiss, with our expense account.

Where, might I ask were all these negative-minded citizens on the first night that the building committee met the public, on the subject.

The writer was one of about fifty people that came to the original meeting on the Glen Road School. And there was not one objection to the expense of the over-all undertaking. Let me correct myself: there was one; a little man, with a stub of a pencil, who questioned Mr. Hanke on the detail of each room. He painstakingly wrote figures on a small pad, and commented:

"Seems a little high to me." But who was he? Was he responsible for this about-face of the Parent Teachers, the Selectmen, and the Town Manager? Probably, but this doesn't seem possible. But he was one man in this town that wasn't afraid to speak his mind, even though it might differ from the general opinion.

Your writer felt that things were running a little high, also, but neglected to voice an opinion at the time.

It seems to me that it would have been more to our credit as a town, had we spoken out on that first night; which only gets us back to the lesson of listening to a small thing called a conscience.

It wasn't fair to the building committee who worked for nothing, or to ourselves, to be set down by the State, on a subject that was sorely eating at our minds, and not one of us with the courage of our convictions!

Sincerely,  
Guilty Conscience.

### WELCOME WAGON NEWCOMERS

Mr. and Mrs. B. Herman of Oakdale Rd., No. Wilmington, are from Alaska; Mr. and Mrs. Herbert Gibbons of Birchwood Road, with 2 sons, are from Chelsea; Mr. and Mrs. Milton Bradford, of 12 Dorothy Ave., are from Lexington.

Marion J. Woller, Welcome Wagon Hostess for Wilmington, called on the above to welcome them to our prosperous town.

She also visited Mrs. George Maynard, of Oakdale Rd., who has a new baby boy.

### Golden Elegance

THE MOST ELEGANT GENTLEMEN IN TOWN will be going formal this holiday season. But men no longer feel they must surrender individuality by being dressed as everyone else is. The day of the "penguin look" has gone — evening clothes are smartly different this year. Witness as proof this silk and Lurex After Six tuxedo. The ultimate in sartorial splendor, the jacket is a houndstooth pattern, given new elegance through the use of gold Lurex, the non-tarnishing metallic yarn. Contrasting black silk lapels and trousers, black satin tie and cummerbund complete the picture of a man with a zest for the good things in life.

## Sputnik's Message to Us

By John P. Brennan, staff-writer, Paulist Feature Service

"BEEP, BEEP" used to mean that a youngster wanted to pass you on his bicycle. Today two "beeps" signal that a new satellite is spinning around the earth.

The Soviet launching of two "moons" within short space of one another, and the Russian boast of reaching the moon has many Americans worried.

FOR MANY in this country, the new "moons" were like clouds of fear and uncertainty. When Sputnik went up, their hopes went down. The beeps gave many the blues.

For a long time, we have been confident that the technical know-how of our scientists was the most advanced in the world—that it would protect us from invasion and destruction.

SPUTNIK HAS warned that we are not first, at least in intercontinental missiles. It also reminded us that physical science alone should never have been our sole hope for security. It was the error of the last century to put all hope in physical science and to forget about God altogether. Twentieth century people are wiser in this respect. They do not want to forget God. But often they do not remember Him.

God created the sun, earth, planets, and man. He gave us our life now and is our hope for salvation and life after death. God knew

from all eternity that Sputnik would be launched. He alone knows fully well what it means for the world.

THE WISE MAN turns to God first for strength and courage. He prays fervently that God will give him that peace which the world cannot give.

As each ICBM rocket is launched, the Christian continues to hope. He knows that God sees and watches over us. The Christian knows that the world is in the hand of God.

THIS TRUST in God who is our final hope does not excuse us from working out a solution to world problems. Trust in God gives us a firm foundation on which to work. It is up to us to do our share. We must pray as if all depended on God, but work as if all depended on us.

As loyal citizens we encourage the development of our national defense; we cooperate in civil defense programs. Those who are in charge of the government need our support and encouragement. We applaud every legitimate means to defend our country and the world. But we must also pray.

THE RUSSIAN satellites may not tell Americans much about ionic pressures or the curvature of the earth. But if we learn from Sputnik how to get down on our knees and ask God's help, we will have learned a great deal. A Sputnik in the sky signals "beep, beep" down to earth. We on earth can beam our prayers up to God in heaven.

After examining several natural wonders through our stamps, lets now see what we can find of man-made wonders to inspire us as we travel around the world through Philately.

Among our United States stamps we find several showing a figure called the "Statue of Liberty." The present issue 3 cents and 8 cents show the head and shoulders and the torch. Other previous stamps show the whole figure.

Where is the Statue of Liberty? What is its meaning to us? who built it? This week, of our philatelic view, lets learn something about this National Monument.

The Statue of Liberty is, in our opinion, one of the wonders of the modern world, not only for its workmanship, but also because of the spirit of freedom and independence that it represents.

It was planned originally as a gift from the French people to the American people to commemorate the 100th anniversary of

American independence and it has since then become a world symbol of the United States and of democratic tradition. The spirit for which it stands is well expressed in a poem by the American writer Emma Lazarus, which appears on a tablet in the main entrance to the pedestal.

Part of the poem is as follows: "Give me your tired, your poor, Your huddled masses yearning to breathe free, The wretched refuse of your teeming shore.

Send these, the homeless, tempest-tost to me, I lift my lamp beside the golden door!"

The huge copper and iron statue represents a crowned woman in flowing robes, her right hand holding aloft the torch of liberty, and in her left arm she holds a book on which is inscribed the words, "July 4, 1776."

The French people raised money by popular subscription to pay for the material and workmanship. It was designed and built by the French Sculptor Frederic Bartholdi, who began on it in Paris in 1874.

It was made in sections and sent to New York by battleship. At the same time, people in this country raised money to pay for the foundation and erection of the huge figure.

The statue is formed of copper sheets, riveted to an iron framework and is bolted to a star stone base. The completed work was unveiled on Oct. 28, 1886. It stands on Bedloe's Island in the middle of New York harbor, and faces seaward, so as to meet the view of passengers on incoming ships.

One of the largest statues in the world, it rises over 301 feet from the bottom of the pedestal to the top of the torch. The figure alone is 151 feet high; the right arm is 42 feet long, the hand 16 feet, 5 inches, the head 17 feet 3 inches by 10 feet, the nose is 4 feet 6 inches; width of mouth 3 feet, the tablet or book in the left arm is 23 feet, 7 inches by 13 feet, 7 inches, the statue weighs 225 tons.

On the inside, elevators and staircases give visitors access to the head. Forty persons can stand in the torch, but for safety, it was closed to the public several years ago. The torch is lighted by electricity. In 1916 floodlight illumination of the entire statue was installed. This makes a wonderful sight at night for ship and airplanes.

We can recall seeing mention in the newspapers of this Statue of Liberty being pointed out to some of the Hungarian refugees as they entered New York for the first time.

As silent messengers, our Statue of Liberty stamps carry a powerful message to the peoples of the world, because often times stamp designs are topics of conversation among people other than philatelists so the message a stamp carries, in this case the fact of freedom, and independence which we enjoy in our dear U.S.A., can be learned by anybody.

# LETTERS to the EDITOR

## OBJECTS TO CRUSADER ARTICLE

Open Letter to the Editor:

In the Wednesday, December 4, 1957 issue of the Crusader, there was a front page piece about Christmas tree lights in Wilmington Square. "Town officials have been asked to supply approximately one hundred dollars . . . They have also been requested to supply men from various town departments. . ."

Who asked and requested? The Crusader? Obviously, because there is only "last years committee." The town, at Town Meeting, voted against the Town's expending 1 cent for Christmas lighting. If one cent were spent by the Town for such a purpose, it would be illegal and every official liable, personally, for such mishandling of funds. Who has the right to go tell the Town officials what to do, and I'd like to know what department has "slowed down to a crawl"?

The cemetery department is burying as many people. If the Highway Department can't find a thing to do, I can tell them of plenty of holes in streets which need to be filled in, but apparently they are working and not slowed down one bit, because I keep finding new patches! As I drive around Town, and this will go on all winter since there is no spraying, our very small and hard-working tree department is chopping down dead and dangerous trees. There's a crew of men cleaning and sweeping up the schools. Knowing kids, as I do, their work has not slowed down. Maybe we have a few departments I don't know about?

Apparently, whoever wrote this piece directed it at the Selectmen as the article says "our worthy officials do not feel that it would be fair for our taxpayers to pay to light the square for the merchants." Fair? Who cares how fair it is? The officials are strapped. The Town voted against it. The article goes on to ask if we

the people "feel" the officials have this right and request everyone to make "enough noise . . . loud enough to be heard at Town Hall."

O.K. I'll make a noise right now. If these Town Officials, as such officially and in their official capacity, do anything about these lights, then I shall get a petition of tax taxable taxpayers and file it in court. As I write this, I know I can get a petition of 500, perhaps even 1000.

You might refer back to last February's issues. You exhorted all the people to go to the Town Meeting, blah, blah, blah. They did. They voted against Christmas tree lights. Yet, you people were strangely quiet about the last special election. As nearly as I can figure out, you people think a town is properly run only when it is spending money, no matter what foolish thing it is, whether for a tree in a courtyard or a Christmas tree light.

As I write this, I know that the merchants, themselves, whether they are residents or not, are chipping in out of their own money to pay for these lights. What any man does with his own money is his business. You people can spend yours as you see fit, but when it comes to my money, and tax funds are part of my money and so my business, I am going to watch the expenditures.

Very truly yours,

M. Flora Kasabowski

Publisher's Note: - Since you are so steamed up about town officials spending money you don't seem to realize that for a few years we have been asking to bid on printing and supplies for the various offices in the town hall. For the first time in a few years, after we insisted very strongly,

the town manager moved a little and asked for bids last year. The bids as far as we were concerned were a ridiculous waste of time. It took hours and hours to bid on the town reports with a hodge podge of figures that did not have any reason to the bid in question.

If the town needs 200 books or less, then it should be stated. The way the bids are made up it is a waste of time for the bidder and a waste of time for town officials to prepare such unnecessary figures. We have fought for years to save thousands of dollars for the town but since we are politically out, all the printing and supplies for various offices have just been handed out without giving us a opportunity to bid on various items.

We know we could save the town a lot of money on various items, such as printing and office supplies, but we are not given the opportunity to do so because we just happen to be politically on the opposite side.

## SPECIAL WORSHIP SERVICES TO COMMEMORATE 250TH ANNIVERSARY OF BIRTH OF CHARLES WESLEY

Rev. Richard E. Harding, pastor of the Wilmington Methodist Church has announced that special services of worship will be held on Sunday, December 15, at 9:15 and 11 a.m. to commemorate the 250 anniversary of the birth of Charles Wesley. A worship service prepared by the Hymn Society of the National Council of Churches will be used during the worship hours. The service will begin with Wesley's hymn "Come Thou Long Expected Jesus" sung by the choir, and the congregational hymn will be another of Wesley's hymns "Hark the Herald Angles Sing." The senior choir will sing special music during the service, and Mr. Harding will deliver a brief meditation entitled: "His Faith in Song."

Charles Wesley, brother of John Wesley the founder of Methodism, combined the experiences of his heart with the songs of his lips into about 6,500 hymns to become the greatest hymn writer of all ages. In singing the hymns of Charles Wesley and repeating parts of them to one another the early Methodists kept alive the flames of divine fire in their hearts. By these hymns, the people became acquainted with evangelical doctrines and vital Christian beliefs, such as: the atonement, love, grace, salvation, assurance, eternal life, mercy, pardon, praise, and adoration. To sing "O For a Thousand Tongues," "Christ the Lord is Risen Today," "Jesus, Lover of My Soul," and "Love Divine," All Loves Excelling," is to feel the warm beauty of a personal faith lifter in majestic exaltation to God and Christ.

The members and friends of the church will sing many of these great hymns at the services this coming Sunday.

## ADULT FELLOWSHIP TO HOLD CHRISTMAS PARTY

The Adult Fellowship of the Wilmington Methodist Church will hold a Christmas party on Saturday, December 14, at 8:15 p.m. Those planning to attend are asked to bring a fifty-cent gift along with a humorous saying.

An evening of fun and fellowship has been planned including a laugh with Victor Borge.

Next Sunday is Communion Day for all the girls of the parish.

On Saturday morning at 8:30 there will be a second anniversary requiem Mass for Stephen Gorski.

In compliance with the wishes of the postmaster, all Christmas cards should be mailed by December 16 in order to provide work time for the veterans.

**SCHOOL BOARD CONSIDERING  
ADJUSTMENT COUNSELOR**

Members of Wilmington's School committee are considering the addition of a School Adjustment Counselor to the staff of our school system. In order to gain more knowledge regarding the necessity of such a person, Dr. MacLellan of the Lowell Mental Hospital

Clinic was invited to take part in an informal discussion on Monday evening.

The discussion, held in room 102 of the high school was well attended. Approximately 30 people including members of the school board, guidance counsel, P.T.A., clergy, and various other interested citizens were on hand.

Introductions were made by Mr. Collins, and a most intelligent discussion followed which certainly proved that each person in the room had the very best interest of the student body at heart.

Dr. MacLellan told those in attendance that a person qualified to fill the position of adjustment counselor would be a "very expensive fellow" at best, but that as his work would be to benefit all students, not only mal-adjusted ones, that the installation of such a program was highly recommended. The mal-adjusted students demands more of the teacher's time, disturbs the class and in many ways deprives the normal student of what is rightfully his. Keeping this in mind, the adjustment counselor would not be merely aiding the small percentage of deviates, but would in fact, be aiding all normal students as well.

Following the meeting, coffee was served to all in the cafeteria.

## THOMAS F. DONOHUE ELECTED REPRESENTATIVE FOR 18TH DISTRICT

Full credit for a job well done was accorded the Wilmington Democratic Town Committee at a victory ball given in honor of Thomas F. Donohue, the newly elected representative for the 18th District. At a party held at the Town Line in Woburn, James McLaughlin, Chairman of the Wilmington Town Committee and Harold McKelvey prominent citizen in local politics were called upon to speak to the elated guests. Senator McDermott gave a big compliment when he mentioned the fact that Wilmington that had been a Republican stronghold for all these years, gave Thomas F. Donohue 241 votes.

that he is not.

Dealer plates are issued after the Selectmen grant a license to an individual or company. The Registry considers the issuance of the license an approval of the party by the Town licensing agency, in this case, the Selectmen.

Earlier in the evening the Board refused to renew a third class license of a Main St. man. Mr. DeFelice later stated that the license was refused because the man did not do the "junking" as his principle business.

A second class license was issued to John Hutchinson after the Board agreed to require him to clean up his Woburn St. yard with-

in 60 days. Another request from Mr. Hutchinson for a rag and paper collecting license was refused for the second time. The first vote was taken some weeks ago and brought up for a second vote because, Mr. DeFelice explained, the Board did not remember the first time that license had been granted the previous year. Another license of the same type had been refused the preceding week by the Board, and Frank Hagerty demanded that the vote on that application be allowed if this second one was voted on again. A motion by Mr. Hagerty to rescind the previous vote received no second. The vote of the Hutchinson license drew four nos, Mr. DeFelice abstaining.

Following debate on the junk licenses, Town Manager Courtney asked for a definition of rubbish as opposed to junk.

A petition for street lights for Dorothy Ave. was placed in the file for the next Town Meeting. The other streets in the same development also will be voted on.

A request from the bowling alley on Main St. for permission to construct additional alleys was permitted.

A license was granted Joe Lynch of Woburn St. to sell fish.

Suspension of gravel operations in the No. 1 pit of the Smith gravel pits was lifted as Mr. Smith has fulfilled requirements.

Two additional taxi licenses were granted Michael Castelano.

The Shawheen Bridge came in for its share of discussion, no developments appear to have taken place since the last meeting. No answers to letters to the B and M, the DPW or the DPU have been received.

The Board went into executive session at 11:30 to discuss the budget.

### Christmas Trees For Public Buildings Must Be Sprayed

Chief Arthur Boudreau of the fire dept., has announced that all Christmas trees to be used in public buildings must be sprayed with a fire proofing material.

Firemen will perform this service for the fee of 25 cents. If you are planning to have a Christmas tree in a public building, simply bring it by the fire station, and get it fire-proofed. A few minutes and 25 cents may save a lot of heart-ache.
